

2023

ECIA speaks for hundreds of companies who are involved in the manufacture and sale of authorized, genuine electronics components. They care about keeping up with industry trends and statistics, value their employees and know that speaking as one voice on important issues is good for the industry and for themselves.

ECIA events bring you face-to-face with the leaders of the authorized electronics components industry. We bring the industry together to focus on trends, best practices, and pertinent issues.

October 22 – 24, 2023 • Loews Chicago O’Hare Hotel

- Don Hnatyshin, Jabil
- Chuck Brooks, General Dynamics
- Evan de la Torre, Challenger Sales
- Gordon Hunter, Littelfuse, Inc.
- Dr. Barry Lawrence, Texas A&M

The Executive Conference is the only conference where 400 senior management teams from the electronics industry's leading companies - representing the entire supply chain - gather to understand and address cross-enterprise challenges. This is where you gain access to industry experts and knowledge, forge the relationships that can make a real difference, and learn how to remove roadblocks to success.

The Executive Conference has been a must-attend event for over 30 years. The Conference offers an in-depth look at the industry and is geared not only towards education, but also to fostering relationships throughout the supply chain network. The meeting offers personal access to industry experts, ample time to discuss important issues and critical networking opportunities.

What attendees say:

"The conference is a great opportunity to see other industry executives together at one place. And the speakers are always relevant with topics that are front of mind and that are important to us and going on right now."

"The ECIA Conference is one I look forward to every year. It not only tells me about the current trends but it makes me think about what's going to happen."

"Clearly the ECIA Committee responsible for this conference did an outstanding job with the mix of speakers overall. Hope this strategy will continue to apply to future conferences."
