Global Industry Practices Committee (GIPC)

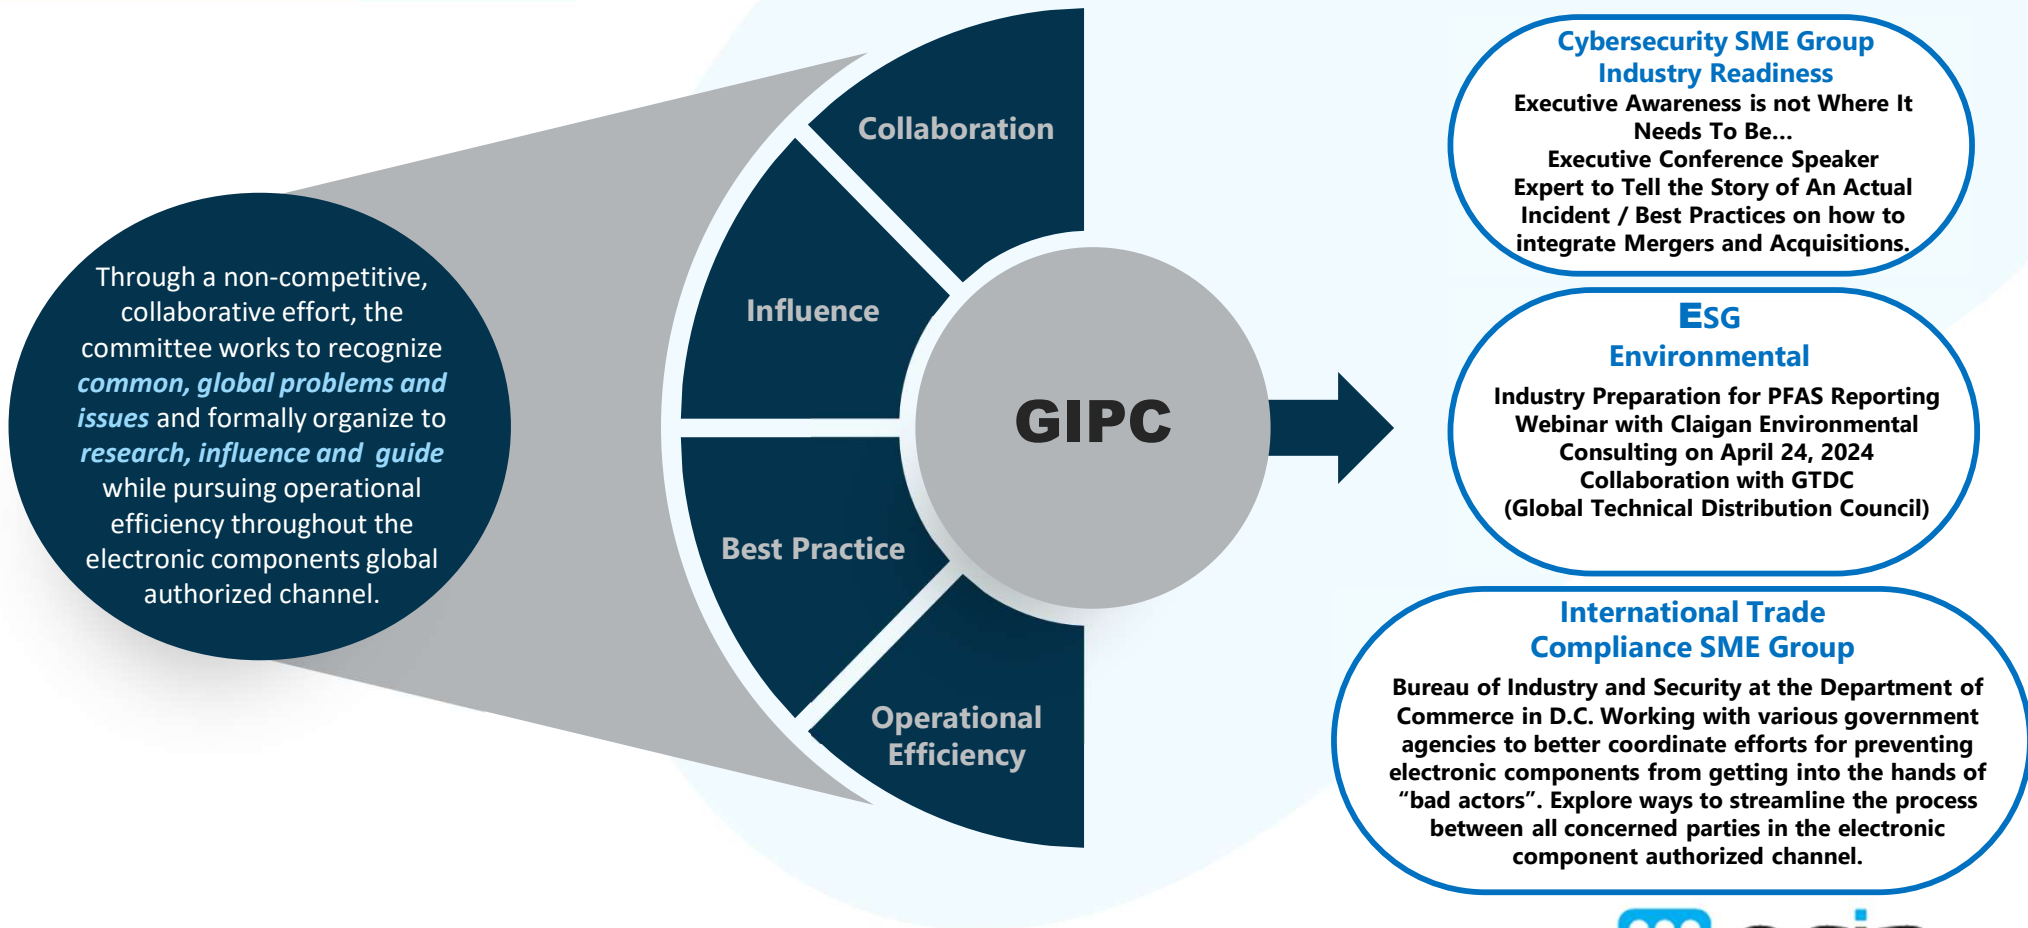

Brief Run-through of 2023 Projects and Carry-Overs

- **GIPC Publishes TSCA Data Collection Tool** – Template standardizes data collection for Toxic Substances Control Act PBT prohibitions.
- **GIPC Publishes AS6496A Completes a 5-Year Review** – Review led by TTI's Kevin Sink, Vice President of Total Quality with SAE's G-19 Committee...Article published in January's issue of Electronic Sourcing
- **GIPC Publishes Cyber Security Guidance Document** – Managing Cyber Security for International Operations
- **GIPC Launches 2D Barcode Review** – After completing the 5-Year Review this labeling specification will be converted to an ECIA (EIA) standard [ECIA Publishes Labeling Standard on 2D Barcode \(ecianow.org\)](https://ecianow.org)
- **GIPC Publishes Date Code Restrictions** – Guidance Document Replaces 2002 NEDA version, offers updated recommendations to the authorized channel.
- **EU REACH Restrictions on PFAS Will Have Major Impact** – ECIA's GIPC, in cooperation with other industry organizations urges manufacturers to get engaged.
- **GIPC Explores ESG** – GIPC will concentrate its efforts on the “E” in ESG where many of these new priorities are being worked on within the Environmental SME (Subject Matter Expert) work group.
- **ECIAs Workplace Disruption Group Meets** – Work group met from 2020 to 2022 and published 3 documents. Their meeting again in 2023 to revisit continued changes in the workplace.
