

## GIPC Webinar - Q1 Update

February 8 | 4 PM EST | [Register Here](#)

The Global Industry Practices Committee has been extremely productive over the past few months. ECIA's Vice President of Industry Practices Don Elario will host the quarterly webinar which will feature an association update with CEO David Loftus and the latest information on key initiatives:

- Market Update / Business Review Project with Dale Ford
- GIPC Review with Committee Co-Chair Pete Shopp, Mouser Electronics
  - Design Registration, Closing out Phase 1 and moving forward with Phase 2
  - Best Practices for the Listing of Authorized Distributors and Manufacturer Reps on Manufacturers Websites
- Monitoring of activity around the SCIP Database, which went live on January 5<sup>th</sup>

Learn the details on adopting the best practices and commit to getting involved! [Register today.](#)

## Research & Analysis Recently Published

### Member of the Week

Congratulations to **Sager Electronics**, ECIA's Member of the Week.

Sager Electronics is a North American distributor of Interconnect, Power and Electromechanical components and a provider of value-add solutions. Sager's President Frank Flynn has been an active member of ECIA and its predecessor NEDA since 1999, serving on the board of directors for both entities and also on the EDS board. A past recipient of the Gail S. Carter Award, Frank was recently named ECIA's Board Chairman and addressed the importance of serving the industry.

*"As a longstanding member of ECIA, I am a great believer in the association. ECIA provides a forum for*

Managing in an Uncertain Economy Series: There is no crystal ball, but forecasting is the next best thing you can do to predict your business's economic future.

Join economist and forecasting expert Alex Chausovsky, Senior Business Advisor, ITR Economics, who will provide data and analysis on what to expect for the remainder of the year and Q1 2021. Attendees will learn about a method by which their company can take advantage of its own data to gain valuable economic insights. Using rate-of-change calculations, the audience will find out how to identify what their data is telling them, where they are in the business cycle, and how to interpret the information to benefit their business strategy and help them make the right decisions at the right time. Attendees will also learn about leading indicators, which help companies see around the corner into the medium-term and long-term future.

Members must log in to the ECIA website to register. The recordings and presentation decks from the previous webinars are available on the [Members Only](#) page

## Did You Know? EDS Schedule Starts on Monday

**EDS 2021 Rescheduled | August 30 - September 2 | Monday through Thursday**

Nothing is more important to us than the health and well-being of our fellow industry leaders. With that in mind, the EDS board has decided to move the dates of the 2021 EDS Leadership Summit to August 30 through September 2. The Mirage Resort in Las Vegas will continue to be our hosting venue.

**EDS Communications:** You may have received email notifications from outside sources not affiliated with official EDS parties. Know that these are not "official" solicitations and the vendors are not associated with EDS, ERA or ECIA. All official emails will come directly from EDS with information concerning registration and hotel accommodations.

EDS has always offered registered attendees the option of seeing the complete list of attendees - no need for you to buy an official listing of registered attendees from an unauthorized vendor. Help us keep EDS a safe and secure environment - we look forward to seeing you in August!

*advancing ideas, addresses the needs of the supply chain and creates standards we rely on to conduct business. Throughout my involvement, I've had the unique opportunity to work alongside professionals from different organizations with different ideas, but who all share the common goal of strengthening our industry. It is through our volunteerism that ECIA continues to grow and evolve, and I encourage everyone to contribute their time and talents."*

We applaud the Sager team and thank them for their support!
