## Sign-up for COVID Regulation Alerts from Compliance & Risks

 **compliance & risks** ECIA recently announced a partnership with [Compliance and Risks \(C&R\)](#), a company that provides reliable legislative information, consulting, market access and managed services solutions that allow your company to effectively manage regulatory changes around the world.

C&R has a proprietary knowledge management platform [C2P](#) that supports compliance departments by helping them effectively deal with expanding regulatory burdens, saving time and resources.

For a limited time, C&R is offering ECIA members a free subscription to their [COVID Alert service offering](#). To have this enabled, please complete the [contact us form](#) and you will receive details automatically. A representative from Compliance & Risks will be in contact to share login details.

## EIA Standards Revised and Published

internationally.

Standards committees managed by ECIA develop industry standards that drive the manufacture, application and use of electronic component products and systems both here in the US and

The following revised EIA standards have been published:

- [EIA-364-21F](#) Insulation Resistance Test Procedure for Electrical Connectors, Sockets and Coaxial Contacts
- [EIA-364-38E-2020](#) Cable Pull-Out Test Procedure for Electrical Connectors.
- [EIA-622-C](#) Glossary of Electrical Connector Related Terms

## Interested in ECIA Council Initiatives? Listen to Recent Podcasts

ECIA Council Chairs Rob Kirch (Manufacturer) and Alan Ahern (Independent Manufacturer Rep) recently recorded podcasts to report on the activity of each group over the past quarter.

Alan provided updates on the progress of projects such as developing [best practices for distributor training](#), working to improve the extract, transfer and load (ETL) process, as well as contributing to the industry-wide initiative to modernize the design registration process.

Rob reported that the Manufacturer Council was making substantial progress on projects such as expansion of market share data collection and the industry-wide initiative to modernize the design registration process.
